Introduction.

In this first activity of the Business English II subject, we are asked to investigate where we can have a business trip. We must present to our labor council the reason for the importance of investing in the business trip for employees, giving know the positive and personal aspects of each event or trip that is sent to different parts of the country or abroad depending on what is proposed by the area and the department to which it belongs. In contexts we will present the city to which we request the business trip by showing a 10-slide presentation with the content of the city or country to which the business trip is required. They are already an important tool to establish business relationships, increasing visibility of the company, and improve its image and reputation. In addition, the employee also gains experience in knowing and researching new technologies and their business relationship skills, among others.

Description.

For this initial activity, we have been tasked with researching potential business travel destinations. This research will be presented to our immediate supervisors and managers for approval. The presentation must consist of no less than ten slides using the canvas tool which is a website found on the internet or powerpoint from office tools, containing relevant information such as the proposed destination, important or historical sites within the city, and a justification for the trip. The assigned activity emphasizes that our work may take us to various cities, countries, and other places around the world, and that careful planning and proper travel arrangements are essential. It also points out that management is receptive to business travel proposals that will enhance job performance. This activity is for the Business English II subject within the software development engineering program that we are currently taking.

Justification.

This initial activity in Business English II serves as a practical exercise in professional communication and strategic planning, both crucial skills for software development engineers. By researching and proposing potential business travel destinations, we gain experience in identifying opportunities for professional growth and development. The requirement to create a ten-slide presentation using either Canvas or PowerPoint reinforces our ability to synthesize information concisely and present it persuasively to a professional audience, mirroring real-world scenarios where clear and compelling communication is essential for securing buy-in for projects and initiatives.

Additional elements to consider in the documentation are as follows:

- Grammarly should be used to ensure grammatical accuracy and clarity throughout the presentation.
- The presentation PDF is in your GitHub portfolio.
- Canvas link and GitHub link included in the assignment document.
- Tools to use Canvas or PowerPoint.

Development

At this point we will carry out the documentation for the creation of the business trip presentation that will be proposed to the manager and supervisors of the area.

[Link: GitHub](#)

Presentation.

At this point of the activity we attach the evidence of the presentation showing the place where we requested to make the business trip, where it is indicated that it is a beautiful city with a lot of history.

and fantastic architecture. In addition, the expected cybersecurity event will be the spearhead for increasing the experience of the IT engineers who attend. For this reason, only approval is required to make the trip..

Vilnius, Lithuania

Business Trip.

Why should we visit Vilnius, Lithuania?

The key point of our business trip is to increase business skills and knowledge of new technologies.

This city has many historic buildings representing Gothic, Renaissance, Baroque, and Classical architectural styles.

CyberWiseCon is a premier IT security conference that brings together cybersecurity experts, industry leaders, and IT professionals from around the Europe.

Lithuania is ranked 8 of the 10 countries with the best cybersecurity in the world.

The screenshot shows the NCSI website with a dark theme. At the top, there's a navigation bar with links for INDEX, METHODOLOGY, SERVICES, FAQ, ABOUT US, and NCSI 2016-2023. A blue button labeled 'COMPARE' is also visible. Below the navigation, there are tabs for ALL, COUNTRIES, and TERRITORIES, with 'COUNTRIES' being the active tab. A table lists the top 10 countries based on their National Cyber Security Index score. Lithuania is listed at rank 8, with a score of 85.00. The table includes columns for Rank, Country, National Cyber Security Index (with a progress bar), Digital Development Level (with a progress bar), and Difference.

Rank	Country	National Cyber Security Index	Digital Development Level	Difference
1.	Czech Republic	98.33	72.93	25.40
2.	Poland	92.50	73.21	19.29
3.	Belgium	92.50	73.55	18.95
4.	Italy	88.33	73.58	14.75
5.	Estonia	88.33	82.56	5.77
6.	Canada	87.50	78.14	9.36
7.	Australia	87.50	82.60	4.90
8.	Lithuania	85.00	75.53	9.47
9.	Austria	85.00	78.35	6.65
10.	Portugal	84.17	72.94	11.23

The screenshot shows a Grammarly document review interface. The main window displays the text: "Lithuania is ranked 8 of the 10 countries with the best cybersecurity in the world". A red box highlights the word "world". A sidebar on the right shows a "Review suggestions" section with a single suggestion: "Correctness - Add a period" followed by "...cybersecurity in the world.". There are buttons for "Accept", "Dismiss", and "...".

Both nations have signed several bilateral agreements, such as the Treaty of Friendship (1938); Cooperation Agreement in the Fields of Education, Culture, Art, and Sports (2002); Agreement for the Elimination of Visas in Diplomatic and Official Passports (2002) and an Agreement to Prevent Double Taxation and Avoid Tax Evasion in the Area of Income Tax and its Protocol (2012). In 2023, both nations celebrated 85 years of diplomatic relations.

Premier IT Security Conference

The business trip is to attend the premier IT security conference and gain experience as an IT engineer.

The screenshot shows a Grammarly document window. The main text area contains the sentence: "The business trip is to attend the premier IT security conference and gain experience as an IT engineer." Below the text, there are several small icons and status indicators. On the right side, there is a decorative illustration of a cactus with a small speech bubble above it containing the text "You're on point! There are no more suggestions." The overall interface is clean and modern, typical of a grammar and punctuation checker application.

Conclusions:

The trip to Vilnius is intended to increase your experience as an IT engineer and familiarize you with new cybersecurity features and solutions. You will also have the opportunity to explore its streets, and historic monuments, and learn a little about the city's history.

Conclusion.

In summary, the business travel proposal is a fundamental tool for professional growth and company success. By presenting a well-crafted proposal that includes a solid justification, a detailed itinerary, and a clear budget, employees can demonstrate their commitment to developing their skills and their ability to generate value for the organization. Furthermore, the business travel proposal offers employees an opportunity to explore new trends and technologies in their field, network with other professionals, and gain knowledge and experience applicable to their daily work. By investing in employee development

through business travel, companies can improve their competitiveness, attract and retain talent, and foster a culture of innovation and excellence. Ultimately, the business travel proposal is an investment for both the employee and the company, yielding short- and long-term benefits. Additionally, some details regarding the required grammar tool were presented. I hope that the documentation of this activity meets your expectations and adequately addresses all requirements.
